

Insurance Concerns for CRNAs Employed by Hospitals or Groups

As a CRNA employed by a hospital or group, you face unique malpractice insurance concerns; some you may be aware of and some you may not. As the Association's insurance agency, AANA Insurance Services wants to be a resource to all members, not just those who buy an insurance policy.

This packet includes information about insurance issues that employed CRNAs should be aware of. A good starting point is our "*Insurance Checklist for Employed CRNAs*."

While AANA Insurance Services has an insurance policy designed specifically for CRNAs employed by a hospital or group (information on this new policy is attached), our primary objective is to inform and educate; we want our members to be able to make informed decisions regarding the malpractice insurance covering their practice.

If you have questions or concerns about how the coverage provided by your employer might impact you, please feel free to contact me by phone at 800/343-1368, Ext 3924 or by email at lkelly@aana.com.

I welcome the opportunity to be of service.

Leslie Kelly
