

DISCOVER THE POWER OF THE CRNA

Marketing to Anesthesia Providers?

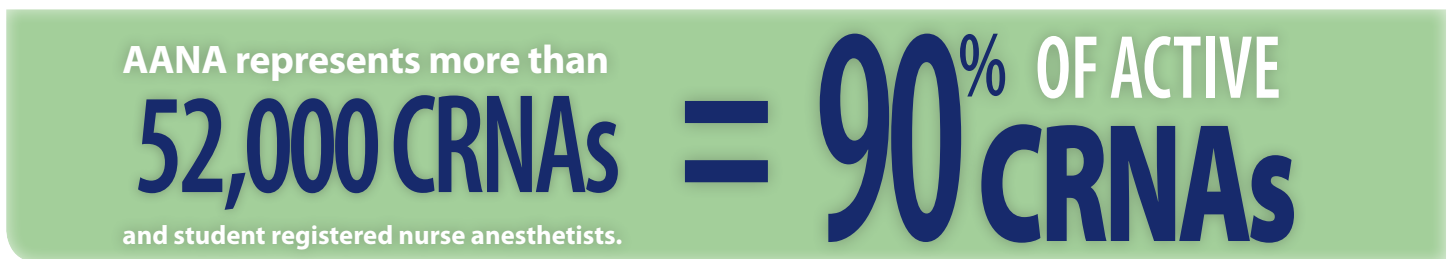

Certified Registered Nurse Anesthetists (CRNAs) have a strong influence on purchasing decisions regarding anesthesia equipment and supplies. CRNAs are highly valued in today's healthcare environment because they deliver the same safe, high-quality anesthesia care as their physician counterparts but at a lower cost, helping to control rising healthcare costs. CRNAs are trained to administer every type of anesthesia to all types of patients in any healthcare setting where anesthesia is delivered.

- General anesthesia
- Regional anesthesia
- Sedation
- Pain management

MILLIONS OF AMERICANS RELY ON CRNAs for their anesthesia care, especially maternity/obstetrics, military, elderly and those in rural areas.

In some states, CRNAs are the **SOLE PROVIDER IN 100%** OF RURAL HOSPITALS.
