

Spinal Epidural with Obstetric Essentials Workshop

October 24-26, 2019

American Association of Nurse Anesthetists

Park Ridge, Illinois

Safe and effective anesthesia **CARE** for every patient.

AANA.com

Purpose:

The Spinal Epidural with Obstetric Essentials Workshop provides a thorough overview using lecture and guided hands-on experiences of spinal, epidural and obstetric anesthesia procedures. The faculty provides ample time for small group discussion/demonstration along with case presentations.

Target Audience:

This workshop is for CRNA's interested in developing their skills and knowledge of spinal, epidural and obstetric anesthesia.

Accreditation Statement: This course has been prior-approved by the American Association of Nurse Anesthetists for 23.50 Class A CE credits; AANA Code Number: 1037861; Expiration Date: 10/26/2019.

AANA designates this program as meeting the criteria for 4.25 CE credits in Pharmacology/ Therapeutics.

The American Association of Nurse Anesthetists is accredited with distinction as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

AANA is an approved provider by the California Board of Registered Nursing, CEP #10862.

In Kind Support:

Ultrasound equipment for this educational activity has been provided by Sonosite. The planners of this workshop disclose that Sonosite was not involved in any component of the planning process for this educational activity. Sonosite understands that they must abide by the American Association of Nurse Anesthetists (AANA) Provider Unit's policies and procedures. Educational sessions will be monitored by AANA staff to ensure content integrity and prevent bias.

Accreditation does not imply that the AANA or the American Nurses Credentialing Center's Commission on Accreditation (ANCC) approves or endorses any product displayed, mentioned or used in any of the educational activities.

Faculty and Planner Disclosures:

All presenters and planners of this continuing nursing education activity are required to disclose to the audience any significant financial relationship with the manufacturer(s) of any commercial healthcare products, goods or services consumed by or used on patients. If any conflict has been disclosed, the planners of this program assure that the content is unbiased and free of any conflict of interest.

All planners, authors and content reviewers have disclosed for this meeting and there were no commercial interest relationships to declare.

Evaluation/CE Credit Claim:

The link to an electronic Evaluation/CE credit claim form will be emailed to all participants no later than Saturday, October 26, 2019. Please check your Spam folder and Inbox for this important email. Once you receive the email with hyperlink, please complete the Program Evaluation, the Overall Meeting Evaluation and finally, SUBMIT your CE credits. You will be able to print your certificate immediately when this is done. CE credits are imported to the member transcripts within 5 business days of the meeting and weekly after that for 60 days.

Please note – if you have “opted-out” of receiving emails from the AANA, you will not receive this email. You will need to send an email to: AANA_evaluations@aana.com requesting that a separate email be sent to you.

Thursday, October 24, 2019 - Day 1

6:00 a.m.	Breakfast Available at Hotel	
7:30 a.m.	Shuttle from Hotel to AANA Headquarters in Park Ridge	
8:00 – 8:30 a.m.	Welcome and Introductions	
8:30 – 10:00 a.m.	Patient Selection and Workup (1.5 Class A CE) Learner Outcomes: <ol style="list-style-type: none">1. Discuss the indications and contraindications for spinal and epidural anesthesia.2. Review requirements of regional anesthesia.	Brian J. Kasson, DNP, CRNA
10:00 – 10:15 a.m.	Break	
10:15 a.m. – 12:00 p.m.	Physiology and Pathophysiology of Pregnancy (1.75 Class A CE) Learner Outcomes: <ol style="list-style-type: none">1. Differentiate appropriate assessment findings between the non-pregnant and the pregnant patient.2. Identify and apply appropriate anesthetic planning to the pregnant patient with pathology.	Michael Rieker, DNP, CRNA, FAAN
12:00 – 12:45 p.m.	Lunch- Provided by the AANA	
12:45 - 2:00 p.m.	Neuraxial Pharmacology (1.25 Class A CE with 1.25 Pharm) Learner Outcomes: <ol style="list-style-type: none">1. Identify the mechanisms and sites of actions of local anesthetics used during spinal and epidural anesthesia.2. Identify the concept of "grams percent" and "ratio" as applied to calculations for preparing drugs for regional anesthesia.	Franklin J. McShane, DNP, CRNA
2:00 – 2:15 pm.	Break	

2:15 – 3:15 p.m.	<p>Spinal Techniques and Applications (1 Class A CE) Learner Outcomes:</p> <ol style="list-style-type: none"> 1. Identify the anatomic structures and considerations encountered during the performance of neuraxial anesthesia 2. Describe the most common approaches, tools and techniques necessary in the performance of the subarachnoid block. 	Mary S. Nadolny, MS, CRNA
------------------	---	---------------------------

3:15 – 4:00 p.m.	<p>Continuous Spinal Anesthesia (.75 Class A CE) Learner Outcomes:</p> <ol style="list-style-type: none"> 1. Describe the technique and management of continuous spinal anesthesia. 2. Describe the physiologic changes associated with continuous spinal anesthesia. 	Franklin J. McShane, DNP, CRNA
------------------	--	--------------------------------

4:00 – 4:15 p.m.	Break	
------------------	--------------	--

4:15 – 5:15 p.m.	<p>Teaching Stations: Motor Skills – Spinal (1 Class A CE with .5 Pharm) Learner Outcomes:</p> <ol style="list-style-type: none"> 1. Demonstrate the superficial anatomical landmarks and manipulation of equipment, proper needle insertion, and drug instillation for spinal anesthesia. 2. Apply knowledge of pharmacology in the calculation of appropriate dosages of drugs for spinal anesthesia. 	Brian J. Kasson, DNP, CRNA Franklin J. McShane, DNP, CRNA Mary S. Nadolny, MS, CRNA Charles A. Reese, PhD, CRNA Michael Rieker, DNP, CRNA, FAAN
------------------	--	---

5:15 p.m.	Program Ends	
-----------	---------------------	--

Friday, October 25, 2019 – Day 2

6:00 a.m.	Breakfast Available at Hotel	
-----------	-------------------------------------	--

7:30 a.m.	Shuttle from Hotel to AANA Headquarters in Park Ridge	
-----------	--	--

8:00 - 9:00 a.m.	<p>Epidural Techniques and Applications (1 Class A CE) Learner Outcomes:</p> <ol style="list-style-type: none"> 1. Review anatomy relevant to the epidural space. 2. Describe techniques and identify methods to improve success of epidural placement. 	Charles A. Reese, PhD, CRNA
------------------	--	-----------------------------

9:00 - 10:15 a.m.	An Approach to Dosing the Labor Epidural (1.25 Class A CE with 1.25 Pharm) Learner Outcomes: 1. Review application of common drugs used for labor epidural analgesia.	Charles A. Reese, PhD, CRNA
10:15 - 10:30 a.m. Break		
10:30 - 11:45 a.m.	Teaching Stations: Motor Skills – Epidural (1.25 Class A CE with .50 Pharm) Learner Outcomes: 1. Demonstrate the superficial anatomical landmarks, manipulation of equipment, proper needle insertion, and drug instillation for epidural anesthesia. 2. Apply knowledge of pharmacology in the calculation of appropriate dosages of drugs for epidural anesthesia.	Brian J. Kasson, DNP, CRNA Franklin J. McShane, DNP, CRNA Mary S. Nadolny, MS, CRNA Charles A. Reese, PhD, CRNA Michael Rieker, DNP, CRNA, FAAN
11:45 - 12:30 p.m. Lunch- Provided by the AANA		
12:30 - 1:30 p.m.	Combined Spinal-Epidural Anesthesia (1 Class A CE) Learner Outcomes: 1. Identify types of cases or circumstances where combined spinal/epidural (CSE) and dural puncture epidural (DPE) might be the anesthetic/analgesic of choice. 2. Describe the techniques and medications used to provide combined CSE and DPE anesthesia.	Michael Rieker, DNP, CRNA, FAAN
1:30 – 2:30 p.m.	Teaching Stations: Motor Skills- Combined Spinal Epidural (CSE) (1.00 Class A CE with .25 Pharm) Learner Outcomes: 1. Demonstrate the anatomical landmarks, manipulation of equipment, proper needle insertion, and drug instillation for combined spinal and epidural anesthesia.	Brian J. Kasson, DNP, CRNA Franklin J. McShane, DNP, CRNA Mary S. Nadolny, MS, CRNA Charles A. Reese, PhD, CRNA Michael Rieker, DNP, CRNA, FAAN
2:30 - 2:45 p.m. Break		
2:45 - 3:30 p.m.	Adapting Labor Analgesia to Surgical Anesthesia (.75 Class A CE) Learner Outcomes: 1. Discuss strategies for adapting an existing labor analgesia to manage surgical intervention.	Mary S. Nadolny, MS, CRNA

3:30 - 4:30 p.m.	Identifying and Dealing with Inadequate Epidural Anesthesia (1 Class A CE) Learner Outcomes: 1. Discuss underlying mechanisms and strategies for managing inadequate epidural anesthesia.	Michael Rieker, DNP, CRNA, FAAN
4:30 - 5:00 p.m.	Identifying and Dealing with the Inadequate Spinal (.5 Class A CE with .5 Pharm) Learner Outcomes: 1. Describe methods to improve the outcome of spinal anesthetics. 2. Review commonly used anesthetic agents in spinal anesthetics.	Brian J. Kasson, DNP, CRNA
5:00 p.m.	Program Ends	

Saturday, October 26, 2019 – Day 3

6:00 a.m.	Breakfast Available at Hotel	
7:30 a.m.	Shuttle from Hotel to AANA Headquarters in Park Ridge	
8:00 - 9:00 a.m.	Application of Ultrasound for Neuraxial Anesthesia (1 Class A CE) Learner Outcomes: 1. List potential advantages and indications for ultrasound-guided neuraxial blocks. 2. Present lumbar spine ultrasound techniques.	Charles A. Reese, PhD, CRNA
9:00 - 10:30 a.m.	Teaching Stations: Motor Skills – Ultrasound (1.50 Class A CE) Learner Outcomes: 1. Utilize ultrasound devices and image recognition to demonstrate anatomical landmarks associated with spinal and epidural anesthesia. 2. Learn/practice manual skills associated with preparation of equipment and simulated performance of technical aspects of ultrasonography of the central neuraxis.	Brian J. Kasson, DNP, CRNA Franklin J. McShane, DNP, CRNA Mary S. Nadolny, MS, CRNA Charles A. Reese, PhD, CRNA Michael Rieker, DNP, CRNA, FAAN
9:45 - 10:00 a.m.	Break { <i>incorporated into Teaching Station time</i> }	

10:30 - 11:30 a.m.	Regional Conundrums (1 Class A CE) Learner Outcomes: 1. Describe the pathogenesis, prevention, and treatment of neuraxial related hypotension. 2. Understand maternal comorbidities including LAST and total spinal anesthesia.	Brian J. Kasson, DNP, CRNA
11:30 - 12:15 p.m.	Lunch- Provided by the AANA	
12:15 - 1:15 p.m.	Teaching Stations: Motor Skills and Clinical Case Forum (1 Class A CE) Learner Outcomes: 1. Demonstrate anatomical landmarks, manipulation of equipment, proper needle insertion, and drug instillation for spinal and epidural anesthesia. 2. Discuss unique experiences encountered by participants with spinal and epidural anesthesia including anatomy, equipment, drugs, and clinical conundrums.	Brian J. Kasson, DNP, CRNA Franklin J. McShane, DNP, CRNA Mary S. Nadolny, MS, CRNA Charles A. Reese, PhD, CRNA Michael Rieker, DNP, CRNA, FAAN
1:15 - 2:15 p.m.	Labor Analgesia-When Bad Things Happen (1 Class A CE) Learner Outcomes: 1. Understand the significance of sterile technique and timely recognition of systemic infection associated with epidural anesthesia.	Charles A. Reese, PhD, CRNA
2:15- 2:30 p.m.	Break	
2:30 -3:30 p.m.	Post Dural Puncture Headache (1 Class A CE) Learner Outcomes: 1. Discuss the pathophysiologic basis of post dural puncture headache. 2. Describe the efficacy of various treatment options available to manage post dural puncture headache.	Mary S. Nadolny, MS, CRNA
3:30 – 4:30 p.m.	Application of Neuraxial Techniques in the General OR (1 Class A CE) Learner Outcomes: 1. Describe the clinical application of neuraxial techniques appropriate for surgical procedures in the general operating room. 2. Evaluate advantages of common neuraxial techniques and their application in the general operating room.	Franklin J. McShane, DNP, CRNA
4:30 p.m.	Program Ends	

Spinal/Epidural with Obstetric Essentials Workshop

AANA Learn Module

NOTE: Participants are required to view the following lecture on AANA Learn® following the attendance of the course. A certificate of completion of the online modules will be available on AANA Learn®. The self-assessment for these modules will be included in the workshop evaluation. Modules are now available on AANA Learn.

Landscape in Spinal and Epidural Anesthesia (1 CE-CE included in total CE for program)

Lorraine M. Jordan, PhD, CRNA, CAE, FAAN Learner Outcome(s):

1. Discuss the current trends and clinical cases using spinal anesthesia.
2. Discuss the current trends and clinical cases using epidural anesthesia.
